- Allows access to AT&T, MCI, Sprint, and all long distance carriers and toll free calls
- Generates commissions on long distance calls
- Allows calling card and 800 type calls
- INTERNET SuperLink Data -Port\* (optional)
- Indoor or outdoor service
- Smart board with additional programming capabilities (optional)
- Allows or restricts local calls
- Line powered
- Free 911 calls
- Commission opportunities
- FCC Registered
- 30-day money back guarantee

### More Information

Provide convenience to your customers and generate revenues on credit card and collect calls with this smart pay phone. It is ideal for a number of locations, including campgrounds, RV parks, truck stops, convenience stores, airports, vacation lodges, hotel lobbies and more. INTERNET SuperLink™ Data-Port\* allows your customers to access the internet for e-mail and other internet services through their laptop computer. It routes 0+ and 1+ traffic to operator service providers, carriers or automated switches, creating commission opportunities for its owner. It allows a business location the opportunity to provide full telephone service, including the option of free local calling. Restricts direct dial long distance calls.

## Phones and Equipment

**Category:** Payphone - Equipment- sales - used/refurbished

**Posted by:** Josh on Sat Aug 3 13:35:42 EDT 2002

I have 2 Ernest ETX smart phones that can be accessed via the net. I have the software. These two bell style phones are programmed for 50 cents. Asking (\$225 per phone). I also have (2) payphone pedestals (\$50 each) and (2) enclosures (\$25 each) and three 18' x 18' blue metal payphone signs. Also I have an additional reciever. I will throw the signs and reciever in if you take it all!
